Natia Bibilashvili
Student at ISM University, Georgia

„As a Master's student, I was excited to start this journey ISM University had to offer. My experience in the Business Sustainability Management course has been full of adventures. It's a great opportunity to develop awareness of the global economic, social, and environmental challenges and changes we face worldwide. The course provides you with the possibility to gain solid, fundamental knowledge and build your future career. High-qualified professors, a friendly atmosphere at ISM, and an interesting student life make me believe that I've made the best choice possible.”

Fabian Baumgartner
Alumnus of ISM University & Wealth Management Associate at VP Bank, Switzerland

„I chose ISM University wanting to broaden my horizons through the international spirit displayed here. Lithuania is an intriguing, thriving, and exciting country to live in. I definitely could imagine myself living here sometime in the future as it displays a lot of potential. I must say that ISM exceeded my expectations as I had a stellar experience studying here and would highly recommend it to others.”

Bhashini Pathirana
Alumna of ISM University & Commercial Insights Analyst at Adform, Sri Lanka

„I was initially drawn by ISM University's unique Master's course offerings. From an international lecture panel to immersive and practical learning environments, ISM provided an inspiring learning experience that's on par with the quality of EU educational standards. With a robust alumni network and a strong reputation, ISM provided an ideal platform to both enhance my education and establish my career here in Vilnius.”

Herman Sørum Gabrielsen
Alumnus of ISM University & Management Consultant at PA Consulting, Norway

„I chose the master's program at ISM University due to its outstanding combination of quality and affordability. Additionally, this programme allowed me to gain a deeper understanding of innovation management that I started to explore during my bachelor's degree. In the first year of my master's degree, I have been able to secure a full-time position at the Swedish credit management firm „Intrum”, at their Vilnius office. Studies at ISM gave me practical and useful knowledge that's relevant to my job. Also, after living 2 years in Vilnius, I've come to greatly appreciate the inclusive and friendly vibe it offers.”

Mercan Dolu
Student at ISM University, Turkey

„I chose ISM University due to its top-notch education and international environment. Throughout my studies, I had a chance to gain theoretical and practical knowledge, discover myself, and build a stronger career path. I met many like-minded leaders and built an amazing network. Thanks to ISM partnerships I also had a chance to study with the double degree program at Kedge University in France, which broadened my horizons further and challenged me for new achievements. I can proudly say that the master's degree in ISM opens many doors for you and it is an experience you won't regret.”
