## Study Administration

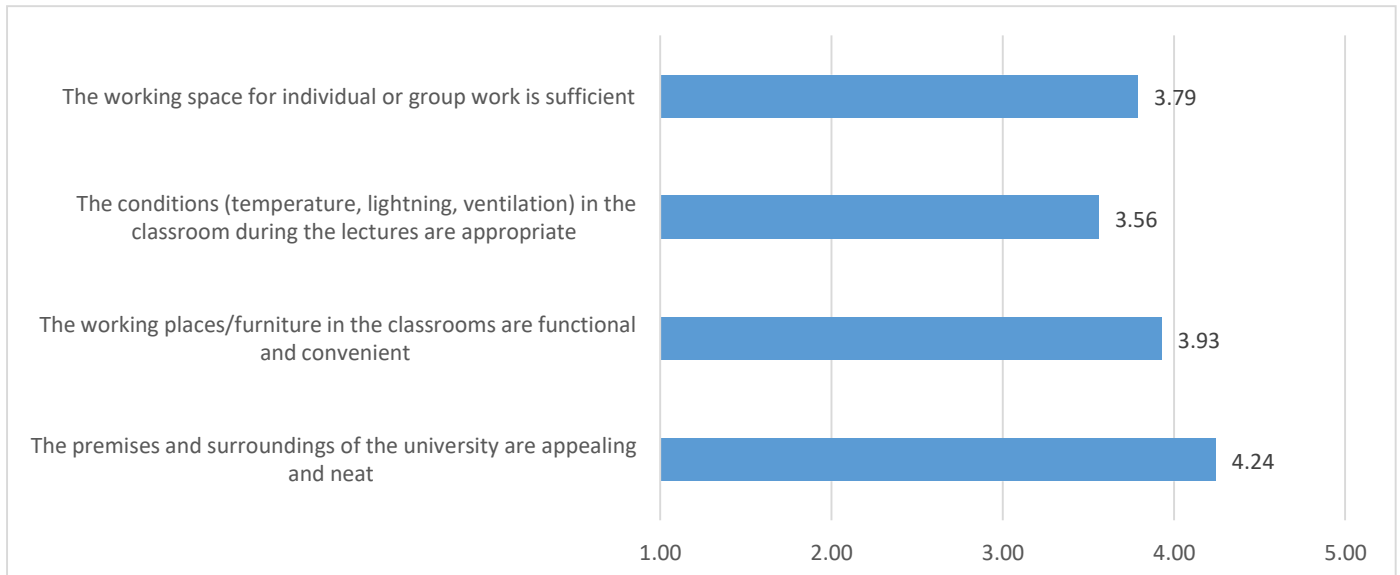

Comments and suggestions	Feedback to the students on Quality Improvement plan
Services	Changes have been made in scheduling office hours for students and contact persons: two study managers work with the bachelor students and are accessible to students the whole working day.
Schedule	In regards to III and IV year students request about the scheduling of classes, the schedule was changed to accommodate obligatory classes either in the morning or afternoon. This semester all intensive courses are scheduled in a row, meaning that students won't have two intensive subjects at the same time. Master Thesis presentation is planned earlier this year for students from Financial Economics programme and in other MSc programmes.
Programme structure and content	Programme director is working on CFA requirements and possibility to become a partner university of CFA. All other comments related to relevant programmes were transferred to programme directors for further processing/actions in the curricular committees.
